EDUCATION

Sharda University

B.Tech - **First-Year GPA - 8.953**

2023 – 2027

Greater Noida

COURSEWORK / SKILLS

- DSA
- Artificial Intelligence
- Frontend Web Development
- Computer Networks
- Operating Systems
- OOPS Concept
- Software Engineering

PROJECTS

Full-Stack Portfolio 📄 | React, Tailwind, Web3Forms

- Developed a responsive portfolio using **React.js** and **Tailwind CSS** with a **light/dark mode toggle** for enhanced UX.
- **Integrated Web3Forms** for seamless communication, improving contact response time by 25%.
- Optimized for **cross-browser compatibility**, enhancing performance and accessibility across devices by up to 30%.

Weather Forecasting App 📄 | React & Bootstrap

- Developed a responsive weather app with **React** and **Bootstrap CSS**, optimized for mobile and desktop views.
- **Integrated OpenWeatherMap API** to display **real-time weather data**, enhancing data accuracy and user experience.
- Enhanced **interactivity** and cross-browser compatibility by adding **react-icons** and optimizing load times, and performance by 25%.

Netflix Clone 📄 | HTML, CSS, JavaScript

- Developed a Netflix clone using **HTML**, **CSS**, and **JavaScript**, replicating the responsive UI layout to improve front-end skills.
- Added interactive elements for a smooth user experience, showcasing **UI/UX proficiency** and responsive web design.

Myntra Clone 📄 | React, Bootstrap

- Developed a responsive Myntra clone using **React.js** and **Bootstrap CSS**, creating an engaging and mobile-friendly UI.
- **Integrated a pre-built server** for **data fetching**, showcasing understanding of full-stack concepts and API consumption.
- **Enhanced client-side interactivity** with React components, focusing on UI/UX and cross-browser compatibility.
